

Alwin Nagel

Co-Founder, SOLYTIC

Alwin Nagel is Co-Founder of solar analytics startup SOLYTIC. Alwin is an experienced energy entrepreneur with a track record of more than 14 years in the energy domain at i.a. Powerpeers, Vattenfall and Nuon.

SOLYTIC is a monitoring and analytics software provider for the commercial market. Founded in 2017, the company was established out of a co-creation of between digital company builder FACTOR10, and leading energy utility Vattenfall. Having reached 550 MWp under its watch in the first year of operation, SOLYTIC is fast-growing and working on a smart analytics and automated maintenance solution for solar operations and maintenance professionals. With its headquarters in Berlin, SOLYTIC has a total of 30 employees.

Alwin has a Bachelor Degree in Economics and Communication from Amsterdam University of Applied Sciences.

2 October 2018, Berlin
